 Classified

[Signature]
I have placed some items in Task 4, Info Drop. Most of these items deal with the exercises we have conducted since 9/11--none of them should be classified. I have hardcopies of other events going back to 1998 that I will drop off. We only keep archives going back to 1998.

We have conducted hijack events in every exercise that Mr. Merchant can remember (he's been here for 16 years). As a matter of fact we had conducted 3 hijack scenarios in the week leading up to 9/11. Additionally, prior to 9/11 we estimated that CMOC ran 5 hijack scenarios each month.

I am also attaching a talker and some questions/answers that were written for CINCNORAD for his Congressional Testimony after 9/11--you may find them useful.

Let me know if there is anything else you need at this time. We will begin working the other tasks in the message.

Todd

Note:
Two attached Word Documents referencing CINCHORD Congressional Testimony were non-applicable to Item #12 and have been removed from this email by Mr. Bill Palmer, NJ3, AO NCTA Task#4, on 12Aug03.

Event: HIJACK ACFT ENTERS ANR AOO. HIJACK ACFT DOES A TOUCH AND GO AT TED STEVENS AIRPORT

CONTROLLERS REMARKS

OBJECTIVE:

Determine what actions ANR battle staff will take with fighters/coord with SIM FAA

RELATED EVENTS: 142100, 142101, 142104, 142102, 142103, & 142105

IMPLEMENTER REMARKS

The ANR IPS will pass the following on SIM Guard/AICC as the pilot at the SIM SUP direction:

"The plane has been captured by several terrorists calling themselves the MUM and some of the passengers have been killed. Terrorist indicate they have Black Death on board the aircraft. If any effort is made to delay or disrupt this flight from reaching its destination many lives will be lost.

SIM SUP will have the hijack aircraft enter final approach into Anchorage then suddenly continue on with deviated flight plan.

Need to add MSELs declaring A26 radar down due to maint problem.

Pass the following as Anchorage Center to Job Control:

"We have just lost A26. We are trouble shooting now.

Note: Will have to add MSEL because of SIM limfaCs that prevent the display of SIM data from the above radars."

RELATED EVENTS: 142100, 142101, 142104, 142102, 142103, & 142105
Event No. 146000
EXERCISE VIGILANT GUARDIAN 01

Mode 0  LEVEL 1

SUBJECT Hijack London to Cairo

Send To: NORAD CC

Event: Hijack Boeing 747 London to Cairo (Original Destination)

Inject COMM: NORAD, Sim FAA
Inject COMM: (315) 334-6745

Inject OPR: NORAD, Sim FAA
Inject DSN: 10/20/00
Inject COMM: 1400

Controllers Remarks

Event Description: This Hijack will exercise NORAD procedures at all levels. At 1745Z Simm MOT/TC will contact NDCC and request military assistance. At 1800Z FAA will contact NMCC and request a hijack conference be convened. NMCC will initiate conference to include conferees listed below. NMCC and NORAD CC are real players the remaining agencies involved will be simulated by the NORAD Exercise Control Group in Cheyenne Mountain. The track will transit the Canadian controlled airspace before entering U.S. airspace. The Hijack will have been in progress for several hours when the request for military support is made. The DDO will initiate the Hijack conference and after role call, will request situation update from FAA. Exercise FAA will brief situation. DDO will task NORAD to provide assistance to FAA by providing covert airborne surveillance of the airliner. TO PRECLUDE KEEPING THE CONFERENCE OPEN FOR A PROLONGED PERIOD OF TIME, THE SIM FAA WILL REQUEST THAT DDO TERMINATE THE NMCC HIJACK CONFERENCE. TC/FAA SECTOR CONTROL AND NORAD REGIONS WILL CONTINUE WITH THE HIJACK OPERATIONS. THE AIRCRAFT WILL LAND AT JFK WITHOUT INCIDENT AND FBI WILL ESCORT HIJACKERS AWAY.

CONFEREES:

N 2

Implementor Remarks

Sim MOT/TC will call NDCC at 1745Z and request military assistance for the hijack event. Request fighter support to provide covert surveillance of the aircraft.

Sim FAA will call NMCC and request a hijack conference at 1800Z.

NMCC initiate conference. The goal is to task NORAD to support request from Sim FAA. Terminate conference and request updates as the situation changes.

Sim FAA: "Here's what we know up to this point, ...Lufthansa flight 221, departed London at 1400Z enroute to Cairo. Shortly after takeoff passengers took control of the aircraft and demanded to be flown to New York. The aircraft departed the UK over the Bristol Channel near Cardiff on a heading of 230 degrees, 500 kts at FL330 squawking Mode 3-7500. To our knowledge these parameters have remained unchanged. There are 233 passengers and 15 crew members onboard. We have been in contact with TC and based on their estimations they expect initial radar contact in Canadian airspace at approximately 1820Z near 5030N and 04900W. We are requesting fighter support to provide covert surveillance of the aircraft as it crosses the border and enters US airspace to final destination."

FBI: if asked respond.....

FBI: "Our sources indicate that the hijackers are part of a religious extremist group attempting to flee religious persecution and take refuge in the US. This does not appear to be an overt act of terrorism, we do not suspect explosive materials or chemical agents to be onboard."

Summary of flight details: Hijack London to KJFK

A. 100 religious fanatics took over the aircraft with demands to proceed to New York (KJFK). To escape the religious persecution of their homeland Egeria (Egypt).

| Event: | POSITIONAL UPDATE AND A CONFIRMATION THAT THE LIN PO HAVE INDEED THE CAPABILITY THAT THEY THREATEN TO HAVE ABOARD THE AIRCRAFT. |

**IMPLEMENTOR REMARKS**

**MESSAGE FROM HQRNORAD:**

**REMARKS:**

THE KOREAN GOVERNMENT HAS INFORMED THE US STATE DEPARTMENT THAT THEY HAVE IN THEIR CUSTODY TWO MEMBERS OF THE LIN PO THAT HAVE STATED THAT THE GAS CONTAINERS WERE SMUGGLED ABOARD THE AIRCRAFT BY BAGGAGE HANDLERS DURING PRE-FLIGHT.

THE ARMING DEVICES THAT ARE ATTACHED TO THE CONTAINERS ARE REMOTE DETONATED.

THE HIJACKERS' WEAPONS WERE SMUGGLED INTO THE AIRCRAFT IN SMALL TOTE-BAGS AND PLACED IN OVERHEAD STORAGE COMPARTMENTS, AGAIN BY GROUND CREW PRIOR TO TAKE-OFF.

OBJECTIVE:

BATTLESTAFF SHOULD ENSURE CANR HAS ALL INFORMATION AND BEGIN THINKING OF HANDOVER PROCEDURES.

Implementor Remarks

THE AIRCRAFT NEEDS TO BE ON FLIGHT ROUTE HEADING TOWARDS ANCHORAGE IN ORDER TO ENTER RADAR COVERAGE, THEN IT WILL DIVERT TO VANCOUVER IN ORDER TO ENTER CANR AOR. THIS IS WHY THE ROUTING IS THE WAY IT IS.

FAA ALASKA REPORTS VIA TELEPHONE:

THE PILOT OF KAL 357 RADIOED INTO FAA THAT THE HIJACKERS HAVE CHANGED THEIR MIND AND ARE NOW DEMANDING TO GO TO VANCOUVER, CANADA.

THE AIRCRAFT WILL IMMEDIATELY CHANGE COURSE AND BEGIN HEADING TOWARD CANADA ALONG WELL KNOWN AIR ROUTE.

T ROUTE:

Event: CNN News report from capital of Firkennon with late-breaking news of hijacking. Details to be released both to CMOC, CADR/RAOC, and CE-SAOC. Script of CNN Report in narrative.

Controllers Remarks

Implementor Remarks

Firkennon Capitol - "CNN News has learned that an Air Firkennon 747 which took off from D'Orly International Airport at 12:15 PM, bound for Montreal, has been hijacked. Officials from the Firkennon Ministry of Transportation announced just a few moments ago that an unknown number of gunmen seized control of the airliner two hours after takeoff, and have ordered the aircraft to divert to an unknown destination in North Argon. La Press has received a telephone call from an unidentified caller claiming the XXXXXXXX is responsible for the hijacking. The caller claimed that the operation was part of a "campaign against US imperialists and their minions." The aircraft is reported to have passengers from the U.S., Canada, and Firkennon, but an actual passenger list has not yet been released. A spokesman from the U.S. Embassy said "all contingencies are being considered to bring the situation to an orderly conclusion."

Event:

CNN News interrupts normally scheduled broadcasts to announce the hijack of an American Airlines 747. News release is contained in the narrative.

Implementor Remarks

Tokyo, Junta Juba - "CNN News has learned that an American Airlines 747 which took off from Narita International Airport at 11:10 AM bound for Chicago, has been hijacked. Officials from the Junta Juba Ministry of Transportation announced just a few moments ago that an unknown number of gunmen seized control of the airliner one hour after takeoff, and have ordered the aircraft to divert to an unknown destination in North Argon.

The Tokyo Sun received a telephone call stating that the XXXXXXXXXXX (XXX) is claiming responsibility for the hijacking. The caller stated that XXX's members possessed XXXXXXXXXX weapons and are prepared to use them. The aircraft is reported to have passengers from the U.S., Canada, and Junta Juba, but an actual passenger list has not yet been released. A spokesman from the Canadian Embassy said "all contingencies are being considered to bring the situation to an orderly conclusion."

EXERCISE CONTROLLERS INSTRUCTIONS:

1. A/C will take off from Gander to Miami. At checkpoint CUDAS, the A/C will start turning towards Boston. The A/C will also start squawking a mode 3/7500.

2. The A/C is a B747, the hijackers demands are unknown at this time. No one has been able to make contact with the A/C, FAA is requesting military assistance.

3. Once voice contact is established, it is determined that 5 hijackers want the A/C to land at Boston. They are armed with small automatic weapons and what appears to be plastic explosives.

4. A/C will land at Boston without approval.

5. There are 87 passengers on board, and 8 crewmembers.

6. Once the A/C lands at Boston, the hijackers will be arrested.

7. Total Distance: 885 NM., Flying time: 2 Hours 03 Min.

Caveat: NCT0023988

POINT PAPER
ON
TRAINING AND EXERCISES

- Purpose is to inform CINCNORAD of recent NORAD exercise and training events analogous to the terrorist attacks of 11 Sep 01

- Hijack and/or terrorist events have been an integral part of every major exercise NORAD has conducted in recent years. VIGILANT GUARDIAN 01-2, conducted 6-11 Sep 01, included three hijack events conducted on 6, 9 and 10 Sep respectively

  - Each scenario had the aircraft landing safely and the situation being resolved peacefully. Two scenarios involved terrorist groups with explosives and biological WMD respectively while the third involved political activists seeking political asylum in the US

  - Execution of these scenarios did not involve any agencies outside of the NORAD chain, although the FBI liaison and military intelligence agencies were involved in scenario development. National agencies were role-played locally

- CMOC routinely conducts the Amazon Arizona series of internal exercises that include hijack scenarios. Prior to 11 Sep, CMOC averaged five hijack training events each month. The most recent was 10 Oct

- Prior to Sep 11, NORAD exercise scenarios involving hijacked aircraft occasionally included a terrorist threat of a single aircraft targeting people or facilities on the ground. The scenarios were terminated by diverting the threat aircraft to a safe landing or by having it crash in an unpopulated area. These scenarios were designed this way to train NORAD forces in tactical operations and procedures, and because scenarios where aircraft crashed into buildings or populated areas did not support the objectives identified by other agencies in the joint planning conferences. Prior to 11 Sep, the decision making process to shoot down a hijacked commercial aircraft had not been exercised

- The terrorist attacks have made it necessary to exercise the connectivity and decision making process which might result in shooting an aircraft down. Since 11 Sep, ANR has conducted 5 simulated and one live homeland defense exercise while CONR has conducted one live exercise. These exercises were to test connectivity, tactical procedures, and decision making from the JFACC to the cockpit

Mr Meteor/J38X/4-5975/knm/13 Oct 01

UNCLASSIFIED

NCT0023989
- On 14 Oct, HQ NORAD conducted a simulated hijack exercise involving select participants on the Domestic Event/Domestic Threat conferences created as a result of the 11 Sep attack. This exercise was to test connectivity and decision making from the cockpit to the OSD.

- CINCNORAD has ordered the development of a robust Domestic Event Exercise program to prepare the chain of decision-makers and supporting agencies from the NCA to the pilot in the cockpit. As procedures are developed or changed, they will be exercised to ensure appropriate knowledge of the procedures and the effectiveness of the supporting connectivity.

- In Jun 01, NORAD exercise staff began planning and negotiating with Delta airlines for a commercial aircraft to participate in a live fly hijack scenario during Amalgam Virgo 02, scheduled for Jun 02. While almost certainly subject to change considering 11 Sep, the most recent scenario saw the aircraft hijacked in the US, flown through Canada, and eventually land in Alaska. Major agencies involved include Delta Airlines, FBI, FAA, Nav Canada, and the Royal Canadian Mounted Police.

- Hijack scenarios have been evolving throughout recent years as planning for Amalgam Virgo 02 clearly demonstrates.

**Training Audience Expected Action:**

Exercise Hijack communication and cross sector procedures.  
Covert shadow monitor hijack by all regions  
Cross-region coordination

**Hijack: Delta Airlines Flight 218,**

1. FAA will request military assistance from the Southeast Air Defense Sector. While this is occurring, FAA will have forwarded this same request through NORAD Headquarters. This request will go from the bottom up and the top down. No action is expected from SEADS except to possibly be a part of the initial planning process of what assets will be used to prosecute FAA's request. SEADS is expected to pass this information over to the Northeast Air Defense Sector. NEADS is expected to perform all aspects of prosecution.

2. The Hijackers intend on taking the aircraft to the French Island of St. Pierre and Miquelon that is located south of New Foundland. The Hijackers wish to seek asylum there from the French. The Hijackers are former Haitian military officers that departed from Haiti using forged documents. They were suppose to meet a privately chartered aircraft in Atlanta. The chartered aircraft never showed, so the officers panicked and purchased tickets to Newark and decided to hijack the aircraft. The forged documents allowed them access into the United States but would not allow them to travel abroad.

3. The Southeast Sector will probably request assets from NEADS to start the initial intercept phase of the scenario. If coordination through higher headquarters is accomplished correctly and expeditiously, then the request should come early enough to be prosecuted.

**Related Events:** None.

**Implementor Remarks:**

1. Delta Airlines flight 218 departed The William B. Hartsfield Atlanta International Airport at 0912 Zulu.
2. The Hijack will occur at the second set of coordinates.
3. At this time the SEADS SimSup will contact their ID section and request as FAA military assistance for this flight.
4. The Hijackers will not provide any demands to FAA. They will inform FAA that they will kill all of the passengers if they are not allowed to leave the United States Air space.
5. There are 142 souls onboard. Seven (7) are crew personnel, six (6) are the hijackers, and the remainder are passengers.
6. No other information will be provided.
7. If the fighters are brought in to turn Delta Flight 218, the Hijackers will give start shooting the passengers one at a time until the fighters are out of sight.
8. The Hijackers are taking the aircraft to Saint Pierre and Miquelon to seek asylum. They are Cuban High Officials who left Cuba without the permission of their government.
9. Total Distance: 1552 NM, Flying Time: 3 hr. 16 min.

MAJCOM remarks: EXERCISE CONTROLLER INSTRUCTIONS:

1. START DATA AT POSITION 1 (REF: FLIGHT CHARACTERISTICS)
2. START SQUAWKING 7500 AFTER AIRCRAFT HAS BEEN AIRBORNE FOR 5 MINUTES.
3. WHEN CALLED AS SIMULATED FAA SECTOR, INFORM WADS AIRCRAFT IS VALID HIJACK AND HIJACKERS ARE NATIVE AMERICANS PROTESTING LOSS OF NATIVE LANDS.
4. COORDINATE PASSING OFF OF AIRCRAFT TO CANR SIMULATION CELL PRIOR TO TRACK IP IN CANR AOR VIA GCCS OR TELEPHONE.
5. AIRCRAFT LAND SAFELY AT JUNEAU NO INDIVIDUALS ARE HURT. HIJACKERS ARE APPREHENDED BY LOCAL LAW ENFORCEMENT.

FAA will have convened their own hijack conference shortly after aircraft is assessed to be a valid hijack. They will quickly request military assistance. FAA will request military aircraft shadow the hijacked aircraft and escort it to it's destination. FAA will contact NMCC, and NMCC will initiate the conference with the following agencies:

Sim NMCC
Sim FAA
Sim FBI
NORAD CC
NDCC

SECRET

NCT0023993
Once conference is convened, NMCC will ask FAA for an update. Sim FAA will give a brief update and request military assistance. Sim NMCC will then ask NORAD and NDCC what assets are available and for recommendations. Sim NMCC may ask for additional information as desired: i.e. Time needed to replace alert fighters, whether fighter can follow aircraft the whole route or need to be relieved, airborne tanker availability, etc. Sim NMCC will then direct NORAD and NDCC to provide military support to FAA and to keep NMCC informed offline.

Request NMCC convene Civil Aircraft Hijack Conference
HIJACK CONFERENCE INPUTS FOR MSEL 146000

1. Overview:

The following script is an optional dialog to be used if the Hijack Conference remains open for the duration of this Hijack event. The NMCC is scheduled to participate in this conference therefore scripted NMCC dialog is not included. If the conference terminates early or is conducted in smaller segments, exercise controller additions can be included to appropriate dialog extractions.

2. Assumptions:

   a. The actual NMCC will participate in this conference.
   
   b. RAOCs will be added to the conference. BFSC personnel will simulate all other agencies including the FAA.
   
   c. Members of the CDS and NDHQ will participate in the Hijack Conference.
   
   d. The NDHQ will coordinate in advance with the NMCC to convene the Hijack Conference approximately 10 minutes prior to the aircraft entering CANR airspace.
   
   e. Any scripted inputs for CDS, NDHQ, CANR, and CONR are estimates since RAOCs and NDHQ should be included in the conference.
   
   f. The Region response may alter the timing and content of some of the inputs. Exercise controllers must be flexible and react to changes to player reactions.
   
   g. The NJJ38X exercise POC will determine participating conferees and provide appropriate telephone numbers for the establishment of the conference.
   
   h. An Exercise Director will supervise establishment of the unclassified Hijack Conference.
   
   i. The approximate time and position the 747 would enter Canadian airspace is known therefore, CF-18s were prepositioned to shadow the aircraft immediately upon entering radar coverage.
   
   j. CANR should have coordinated with CONR for a handoff point to change shadowing responsibilities.
   
   k. The UNCLASSIFIED conference preset will be used and all Hijack Conference dialog will be UNCLASSIFIED.
   
   l. Conferees will include the following:
(1) CONR (actual participation)

(2) NEADS (if added by CONR)

(3) N/SP-CC (ABMO plus others as determined by the CD)

(4) NMCC (DDO, Surveillance Officer, DIA, etc.)

(5) NDHQ and or CDS

(6) BFSC will simulate the following agencies:

   (a) MOT/TC, FAA, ARTCCs, and Approach/Departure Control Centers.

   (b) Law Enforcement agencies.

   (c) USCS
3. Hijack Conference dialog.

Approximately 1812Z or event start + 4:12

Canadian MOT/TC will request military aircraft support to shadow the hijacked aircraft. Since the hijackers demands to be flown to New York will require coordination with the United States, the NDHQ will request a Hijack Conference from the NMCC to coordinate continuity of support.

The Hijack Conference will be established with CDS having responsibility for conference conduct and MOT/TC briefing the hijack details.

CDS

_We received information that a Lufthansa 747 was hijacked shortly after takeoff from London. The hijackers are reported to be a large group of religious fanatics demanding to be flown to New York to escape religious persecution._

_This conference is established to facilitate the safe transit of this aircraft to New York and also ensure, to the maximum extent possible, the possibility of an accident or attack that could threaten defense installations or the populace of Canada and the United States. MOT/TC will brief the flight details and requirements for assistance._

SIM

"Based on the last reported heading and speed of the aircraft, we expect radar contact at approximately 1820Z near 5030N and 04900W."

MOT/TC

"We have requested fighter support to shadow the aircraft through our airspace and they are being held north of the projected IP point."

_It is assumed that CF-18s from Goose Bay or Gander were scrambled in anticipation of the arrival of the 747 and are in position to shadow the aircraft._

"To bring everyone up-to-date on the aircraft, I'll summarize what we know."

"The aircraft, Lufthansa flight 221, departed London at 1400Z enroute to Cairo. Shortly after takeoff a large number of passengers took control of the aircraft by forcing their way into the cockpit and demanded to be flown to New York."

"The aircraft initially flew in a north westerly direction before turning south near Liverpool. The 747 continued on this heading until arriving over the Bristol Channel near Cardiff where it turned to a 230 degree heading enroute to North America. The heading, speed and altitude have not changed since then."
The aircraft is currently at FL330, at 500kts, on a heading of 230 squawking Mode-3 7500. There are 233 passengers and a crew of 15 on board. The exact number of hijackers is unknown although the aircrew believes a large number of the passengers are involved."

Approximately 1822Z or event start + 4:22

CANR or SIM MOT/TC
"We have radar contact on Lufthansa flight 221 at 5030N 04855W MOT/TC is vectoring fighters into a position to shadow the 747."

CDS or NDHQ
Should caution that the interceptors remain behind to remain out-of-site of the 747 passengers.

CANR or SIM MOT/TC
"Aircraft appears steady and level with no unusual flight characteristics."

CONR should have aircraft (probably Otis F-15s) ready to launch to take over shadow responsibilities from the CF-18s.

CANR or SIM MOT/TC
(When applicable) "The CF-18s are in shadow position behind the 747 they report the aircraft is steady and level with no unusual flight characteristics."

CANR or SIM MOT/TC
"We have alerted government and LEA authorities of this hijacking in the event the aircraft attempts to land before reaching New York. We have also coordinated with the US FBI."

CDS
Concern may be expressed over the possibilities of terrorist activity associated with the hijack.

SIM
"The Lufthansa aircrew report that they have barely enough fuel to reach New York and tried to convince the hijackers that they need to land at Gander. The hijackers just keep saying New York, New York, so they're pressing on."

CANR or SIM MOT/TC
"Our sources do not indicate a terrorist act is involved in this event. and intelligence personnel in London have had time to thoroughly examine manifests and recheck baggage scans etc, and there is no indications of explosives or other unusual materials."
"We have alerted Gander of the possibility of this 747 wanting to land there with little or no notification. They are aware of the situation and appropriate personnel have been notified.

"When will the 747 reach Newfoundland?"

"Approximately 1900Z."

"Thank you."

Approximately 1859Z or event state + 4:59

"Lufthansa flight 221 crossed the coast of Newfoundland at 1858Z and is remaining at altitude with no change in speed or heading."

May request an update on the actions and demands of the hijackers.

"The 747 flight crew reports that the hijackers will only allow the aircraft to land in New York, they are not concerned with possible fuel problems."

May request an update on any changes to the flight path etc.

"The CF-18s report that the 747 is still at FL330, 500 kts, on a heading of 230. Nothing unusual has been observed."

May inquire about the fuel status of the 747.

"The original destination of flight 221 was Cairo. From what we know, the 747 was carrying extra fuel amounting to about 3 hours of reserve. With its early course deviation plus the additional distance to New York it will be very low on fuel when it arrives at JFK."

"We've alerted authorities in eastern Nova Scotia that this aircraft will be flying over and may be forced to make an emergency landing with little or no notice."
Should add that naval forces have been alerted of the hijack and coordination has been made with the USCG. Resources in the Gulf of St. Lawrence and the waters between Yarmouth NS and Boston MA are on alert to assist should the 747 go down in the water.

May add or question inputs.

CDS will have 2 small patrol boats, one with a helicopter, on the water near the flight path. The USCG has two Cutters operating NE of Boston and the USN has an Escort Destroyer approximately 125 miles East of New Bedford. The USCG can provide 5 additional surface vessels within an hour and three helicopters 20 minutes after notification.

May inquire as to the availability of suitable runways in Nova Scotia along the flight path of the 747.

"There are several airports in Nova Scotia which may be used.
Charlottetown has a 7,000' runway.
Halifax has a 9,000' runway
Greenwood's runway is 8,000'
Yarmouth has a 6,000' runway
All these facilities have been alerted to the possibility of this 747 having to make an emergency landing."

Approximately 1931Z or event start + 5:31

"Lufthansa flight 221 is overwater again at 4712N 05932W. There have been no changes in flight characteristics. The aircrew is very concerned about their fuel state. The hijackers still will not allow the aircrew to land anyplace but New York."

CONR fighters, probably Otis F-15s, should be airborne in order to rendezvous and takeover from the CF-18s.

The NMCC and CDS/NDOC may converse at this time about transferring responsibility for shadowing the 747.

The NMCC may ask NORAD or CONR about the status of the US fighters.

N/SP-CC and or CONR should provide an airborne status, play time available, and confirm "game plan" for shadowing the 747.
Approximately 1956Z or event start + 5:56.

SIM MOT/TC

"The Lufthansa 747 has just crossed the coast of Newfoundland at 4558N 06248W. The heading is still 230 degrees and they have reduced their speed to about 480 kts. This may be an attempt to save a little fuel."

At this time there may be questions from CDS/NDHQ or NMCC concerning any additional demands from the hijackers.

SIM MOT/TC

"The aircrew reports that these people appear to be deeply religious (make up a religion) who are trying to escape persecution in their home land. They are determined to get to New York and only New York. Their only demand is that they be allowed to land in New York."

There should be coordination between CANR and CONR/NORAD concerning transfer of control procedures plus some mention of a transfer of responsibility from MOT/TC to the FAA, New York Center.

The DDO may have some dialog with the ATC agencies and/or RAOCs concerning responsibility transfer.

Approximately 2018Z or event start + 6:18.

SIM MOT/TC

"The hijacked 747 is now crossing the coastline of Newfoundland still heading 230 at FL330. We will handover control to New York Center in 5 minutes. New York Center has confirmed radar contact with the 747 and the two sets of fighters. The US F-15s have assumed shadow responsibilities and are in position behind the 747. The CF-18s are RTB."

There may be questions or comments from any of the actual players concerning the transfer of control. The exercise controllers should be prepared to adlib as necessary to answer the appropriate questions.

At 2018Z the 747’s position was approximately:
4445N 06105W
FL330
Hdg 230
Spd 480 Kts

Approximately 2024Z or event start + 6:24.

SIM FAA

"New York Center has radar and radios with Lufthansa flight 221 and the F-15s trailing the aircraft. We'll try to keep them high for as long as possible to conserve fuel and see if they can delay their descent until they reach the Boston area."
Exercise Controllers should be ready for questions and comments from the DDO.

Approximately 2040Z or event start + 6:40

SIM FAA  "The 747 is at approximately 4365N 06835W still heading 230 at FL330. Apparently the aircrew will be able to stay at altitude until they reach the US Coast."

SIM FBI/LEA  "We have people standing by at Boston, Hartford, and of course New York. Do you have any better idea if the aircraft will make it to New York?"

SIM FAA  "It will be close but they have reduced speed and if they stay high a little longer they might make it. However, as a precaution the emergency crews at JFK are in position."

SIM FBI/LEA  "We have alerted civilian emergency services close to JFK as well as local hospitals of the possibility of an accident."

The DDO should reference FEMA has been contacted. They may question the wisdom of flying directly over major population centers rather than skirting the coast and then flying directly to JFK thus avoiding major cities.

SIM FAA  "We don't think they have the fuel to divert even a few miles."

Approximately 2055X or event start + 6:55.

SIM FAA  "The 747 has started a descent into JFK. The controllers will take them straight into runway 31 Left. All other air traffic will be cleared from the area until the aircraft is safely on the ground."

The exercise controllers should be prepared to answer any questions from the DDO if any.

SIM FAA  "We expect the 747 should land in approximately 17 minutes. He is passing FL260. The aircrew reports fuel will be real close."

There may be questions concerning the fighters and how long they will continue their shadow responsibilities.

SIM FAA  "We plan to have the fighters trail the 747 until shortly before landing and then put them into a holding pattern until the 747 lands and then take them back to Otis."
"We have received information that all LEA, Customs, Immigrations, and diplomatic personnel are in place at JFK. The airport authorities have identified a remote part of the airport for the 747 to taxi to."

"The 747 is now out of FL210 continuing a controlled descent. JFK approach will assume control in 5 minutes."

Approximately 2107Z or event start + 7:07.

"Lufthansa flight 221 is over to JFK approach and is on an extended final to runway 31 Left. They should be on the ground in approximately 8 minutes. The aircrew reports receiving low fuel warning indications; everyone has their fingers crossed."

Approximately 2109Z or event start + 7:09.

"The 747 is 20 miles from touchdown, the aircraft is very low on fuel and it will be very close."

"Everything is ready at JFK. Emergency crews are all set and we've got a bunch of civilian emergency vehicles standing by on the airport."

"The 747 is 15 miles from JFK."

Pause 1 minute

"The 747 is 10 miles out under power, under control. The F-15s are being vectored to a holding area."

Approximately 2113Z or event start + 7:13.

"Lufthansa Flight 221 has landed safely at JFK. The F-15s are on their way back to Otis.

*Additional inputs can be made to indicate that the 747 is taxiing to the designated area on the airport. At the discretion of the Exercise Controller, the aircraft can run out of fuel while taxiing.*

"The tower reports that the 747 has stopped and ground personnel are moving into position."

Pause 1 minute

"The airport manager reports that the hijackers have surrendered to the aircrew and will allow LEA personnel on board. Preparations are being made to board the aircraft and deplane the passengers."
"The ground supervisor is in control of the situation. We have no further information for this conference. We will coordinate post event reporting with you as needed. Thank you all for your help in the safe conclusion of this event. FAA complete."

DDO should acknowledge, ask any final questions and pole the conferees for their questions. If there are none, the conference will be terminated.

Target aircraft expected to recover at Langley AFB.

Exercise Objectives:
Exercise Battle staff and SAOC Operations in Checklist,
Identification, Intercept, and Hijack Procedures.

Exercise Scenario Specifics:

1. The exercise will involve participation of CONUS RAOC, Vacapes, Washington and New York ARTCC. Specific mission details are as follows:
   a. Exercise Name: Coronet White 99-ACC-29/30/31
   b. Fighter Unit to be Scrambled/Base: 119FW/ Langley AFB
   c. Target Callsign/Aircraft Type: Unknown/??Challeger
   d. Departure Base/Time: ??Suffolk County/As required
   e. Initial Point(IP)/Alt/Time(Z): N3908/W07203(BERGH)/FL240/1900Z
   f. End Exercise Point(EEP): N3720/W07500
   g. Flight Altitude to recovery base: As required/desired.
   h. Routing: File Direct from Suffolk County Airport
      -BERGH(N3908/W07203)-LYNUS(N3800/W07239)
      -Direct W386A/B (delay)-RTB Langley AFB
   i. Airspace reserved/ALT/Times: W386A/B/ALT TBD/1830Z to 2030Z
   j. Radio/IFF/SIF Procedures: Target A/C is to monitor freq. 251.8, Backup Freq. 258.0 on outbound route for pre-scenario coordination. Handover from ATC to Zoom Control will occur once in A/C is in assigned airspace. A/C is requested to squawk ATC assigned mode 3 until IP. The target A/C is requested to change their mode 3 to 5477. The target A/C is not to request a mode 3 squawk of 5477 until at IP or under Zoom Control Direction.

THE TARGET AIRCRAFT IS NOT TO ANSWER ANY UNKNOWN RIDER CALLS.

Related Events: Nil

IMPLEMENTOR

1. Aircraft will proceed direct from LYNUS (N3801/W07239) to point number 3, once in W386B, the aircraft will perform a zig-zag pattern, while descending to 14000 feet, to give a presentation that they are looking for aircraft trailing them. The target aircraft will zig-zag and orbit as directed by Zoom Control.

2. Once the target aircraft reaches point 4, the target aircraft will proceed direct to Langley AFB and land.

3. The Hijacked aircraft will have two United States Congressman on board, these congressman were going to Paris to upkeep Diplomatic relations with Essex. The TWA Flight 411 was scheduled to travel from JFK to Gander and then proceed direct
to Paris, Essex. There are a total of 243 souls on board, including 15 crew and 228 passengers.

4. The Hijacker's intend on taking the aircraft to Chindilla.

5. FAA will contact Huntress Control Identification Section and inform them of the Hijacking when the target aircraft reaches BERGH. FAA will request Military Assistance from Huntress Control. FAA would like Huntress to force the Hijacked aircraft to land at the nearest possible airport that is in proximity of their current flight route. FAA will inform Huntress that the Hijacked aircraft is currently checking BERGH.

6. This should generate a Form 61 and an OPREP 3.

MET: THEIR DEMANDS ARE THAT THE CHINESE REFUGEES THAT ARE BEING HELD IN HOLDING CENTERS NEAR VANCOUVER GET IMMEDIATE ASYLUM.

NOTE: BE AWARE OF VOLCANO ERUPTION AFFECTING AIR SPACE IN SAME TIME FRAME UP TO ATTITUDES OF 29,000 FT.
AMAZON CONDOR 00-1
SEQUENCE OF EVENTS
FOR
TERRORIST HIJACKING, 21 OCT 99

OBJECTIVE: Response to a request from FAA to NORAD with regard to a hijacked aircraft with a Weapon of Mass Destruction (WMD) aboard. Intelligence has set the stage for this event by releasing information about a terrorist group that has the will and means to strike North America with a WMD.

DESIRED RESPONSE: We want HQ NORAD to accomplish some crisis planning and to task Region/Sectors to take action. We will simulate the appropriate agencies for HQ NORAD to interact with. NORAD should convene a Significant Events Conference (or Air Event Conference) with all the law enforcement and civil authorities on line. Since there are Canadian and American citizens aboard, we will not let the aircraft be shot down until the last possible moment which will allow us to get maximum play. The end result of this event is that the crew overpowers the terrorists at the last second and allows the aircraft to be diverted wherever directed. Lots of DYNAMIC play.

211215Z – (Background) An Air France 747 takes off from D’Orly International Airport, Paris (12:15 PM Paris time / 5:15 AM Mountain / 211215Z)

211420Z – (Background) Aircraft Hijacked Two Hours After Takeoff (2:15 PM Paris / 7:15 AM Mountain). British Air Traffic Controller Picks up 7500 Squawk West of Wales (7:20 AM / 211420Z). Flight planned 33K MSL, .78 mach, ETA JFK -------.

211445Z – (Background) U.S., Canadian and French Embassies are notified by the British Government that an Air France 747 has been hijacked (7:45 AM Mountain / 211445Z).

211500Z – MSEL Event # 144829, 1 of 4 – Shanwick CTA/FIR contacts the Gander Domestic CTA/FIR and informs them that an Air France 747 is squawking 7500 and provides its last reported position. They notify the CANR/ Canada East (CE) – RAOC Tracking & ID Section (8:00 AM Mountain / 211500Z). Last reported radar contact was on a heading of 287 degrees True and a position of 54 degrees North and 16 degrees West (7:55 AM Mountain / 211455Z).

211500Z – (Background) The U.S. State Department (DOS) and the Canadian External Affairs are called by their respective Embassies (8:00 AM Mountain / 1500Z).

211517Z – MSEL Event # 144830, 2 of 4 – CNN reports that it has received late-breaking news from the La Press New Agency in France that the terrorist group known as the Army Of Liberation (AOL) has claimed responsibility for the hijacking, now in progress, of an Air France 747. The aircraft is being diverted to an unknown destination in North America. The aircraft’s original destination was Montreal. There are U.S., French, and Canadian passengers on-board (211517Z).
211530Z — (Background) State Dept. and Canadian External Affairs send out a call to key players of their Crisis Action Response Cells. Key players are assembled and the cells are convened. The decision is made by Transport Canada (TC) to contact the NDOC and request NORAD assistance and surveillance (8:30 AM Mountain /211530Z).

211605Z — MSEL Event # 144831, 3 of 4 — U.S. Navy Guided Missile Cruiser (Princeton) operating in North Atlantic Ops. area at 52 degrees North and 31 degrees West picked up a vector on the hijacked aircraft squawking 7500 due North from the ship's position at a distance of 240 miles on a heading of Approx. 290 degrees Magnetic.

211645Z — (Background) The CJCS CAT is passed current information from the ATC System Command Center (ATCSCC), which has approximate route information based on the last known position of the aircraft, the flight plan filed, and estimated enroute speed and altitude. There has been no communication with the aircraft since the hijacking occurred (9:45 AM Mountain /211645Z).

211700Z — MSEL Event # 144835, 4 of 4 — The DDO at NMCC conferences FAA and NORAD CD to explain the situation and to task NORAD for assistance. NORAD tasking at this point will be to covertly shadow the hijacked airliner.

211727Z — Canadian NORAD Region — Canada East (CE) picks up the hijacked aircraft from their Gander Radar Site at 10:27 AM Mountain on a 236 degree True heading at 53 degrees 35 minutes North, 50 degrees West, FL390. FOR TRACK MONITOR: FLY THIS TRACK DOWN THE AIRWAY AS THOUGH IT MIGHT BE GOING TO NEW YORK OR WASHINGTON DC. TURN IN TOWARD CANADIAN LAND MASS PRIOR TO ENTERING NE SECTOR. WHEN THE AIRCREW REGAINS CONTROL OF THE A/C, YOU SHOULD RECEIVE INSTRUCTIONS TO DIVERT TO AN ISOLATED AIRFIELD.

211730Z — NORAD should convene a Significant Event or Air Event/Threat Conference as soon as CANR starts reporting the radar track. If NORAD is slow to do this, NMCC DDO should convene this conference because of possible WMD on-board.

INDIVIDUAL MISSION PROFILE
AMALGAM WARRIOR 00-2
MSEL # 147412

1. AFFECTED CONTROL/SCHEDULING AGENCIES: WADS SAOC, SEATTLE ARTCC, OAKLAND ARTCC, LOS ANGELES ARTCC

2. CALL SIGN: CART 475

3. TYPE AIRCRAFT: 1 X CC144/R (434SQN)

4. DATE/IP TIME: 14 APR 00 / 2000Z

5. MISSION SCENARIO: TARGET AIRCRAFT WILL SIMULATE AN AIR TRANSPORT (ATA) L 1011 WHICH HAS DEPARTED MCCHORD FOR SOUTHERN CALIFORNIA LOGISTICS AIRPORT, CA. AIRCRAFT IS CARRYING A LOAD OF STINGERS FROM FORT LEWIS, WA BOUND FOR FORT IRWIN, CA. SHORTLY AFTER TAKEOFF AN ARMED CREW MEMBER WILL ENTER THE COCKPIT AND TAKE OVER THE AIRCRAFT. THIS CREW MEMBER IS HEAVILY INTO DEBT AND HAS ARRANGED FOR A CENTRAL AMERICAN CONTRA FACTION TO BUY THEM. DESTINATION IN CENTRAL AMERICA FOR THE DROP/EXCHANGE WILL NOT BE KNOWN. PILOT WILL BE TOLD TO REMAIN ON THE FILED FLIGHT PLAN AND WILL BE GIVEN INSTRUCTIONS LATER. TARGET AIRCREW WILL NOT ACKNOWLEDGE ANY HIJACK SCENARIO TRANSMISSIONS FROM ATC. FELLOW CREW MEMBERS WILL EVENTUALLY CONVINCE HIJACKER TO GIVE UP AND THE AIRCRAFT WILL LAND AT VANDENBERG TO TURN HIM OVER TO LEA. A SIMULATED TRANSMISSION FROM THE COCKPIT TO ATC WILL BE GIVEN TO WADS ID SECTION.

SCENARIO PARTICIPANTS: WADS SAOC, 120TH FW @ MCCHORD, 142ND FW @ PORTLAND, 144FW @ FRESNO, 144FW @ RIVERSIDE, CONR AOC, CMOC/NBMC, SIM NMCC, SEATTLE ARTCC, OAKLAND ARTCC, LOS ANGELES ARTCC, FAA ACC.

6. EXERCISE ROUTE AND INSTRUCTIONS:

WAYPOINT LAT/LONG TIME(Z) ALTITUDE AMPLIFICATION
Dprt KTCM-IP 2000Z req FL370 squawk 3/5475
as filed to
TP1-BTG 4544N 12235W 2015 FL370 or as

VBG 3443N 12034W 2200Z Land KVBG
Note: All times after 2000Z are approximate.

7. GENERAL SPINS:
B. FLIGHT PLANS: CART 475 WILL FILE AN INDIVIDUAL IFR FLIGHT PLAN IAW PARAGRAPH 6. IN REMARKS ENTER "PADRA, AW 00-2 TARGET AIRCRAFT, REQUEST 5475 SQUAWK". PADRA MUST BE THE FIRST WORD IN THE REMARKS SECTION. ALL OPERATIONS CONDUCTED OUTSIDE OF EXERCISE AIRSPACE ARE SUBJECT TO NORMAL ATC HANDLING.
C. COMMS: Check In  CUFF CONTROL - 235.9  B/U - 282.6
SIMULATED GUARD FREQ - 364.2
TARGET MONITORS WILL BROADCAST WEATHER RECALLS IN THE CLEAR ON ASSIGNED
FREQUENCIES OR GUARD.
D. IFF/SIF PROCEDURES: TARGET AIRCREW WILL STRANGLE MODE 1, 2 AND 4 UPON
TAKEOFF. SQUAWK THE FOLLOWING DOD ASSIGNED MODE 3/A EXERCISE DISCRETE BEACON
CODE UPON TAKEOFF: 3/5475 (SIMULATED HIJACK SQUAWK). SQUAWK 7700 FOR AN EMERGENCY.
E. ALTITUDE BLOCKS: N/A. TARGET AIRCREW WILL BE SUBJECT TO NORMAL ATC
HANDLING/ALTITUDE CHANGES. LOCAL ALTIMETER SETTING SHALL BE USED BELOW FL180
AND ALTIMETER SETTING OF 29.92 SHALL BE USED AT FL180 AND ABOVE.
F. TARGET MANEUVERING INSTRUCTIONS: N/A. F-15s FROM PORTLAND, F-16s FROM
MCCHORD AND/OR F-16s FROM FRESNO OR RIVERSIDE WILL INTERCEPT AND SHADOW.
G. TERMINOLOGY: "TERMINATE" IS USED TO END INDIVIDUAL ENGAGEMENTS.
"KNOCK IT OFF" IS USED TO END ALL ENGAGEMENTS IN AN EXERCISE AREA. RECALL WORD
FOR THE EXERCISE IS "AMALGAM LEADER".
8. AIRSPACE RESERVATIONS: NONE REQUIRED, NONE SCHEDULED.
9. SPECIAL INSTRUCTIONS FOR ATC: NORMAL ATC SEPARATION CRITERIA AND/OR
FAAH 7610, CHAPTER 7 HIJACK PROCEDURES SHALL BE APPLIED FOR FIGHTERS TO
SHADOW/ESCORT TARGET AIRCRAFT. IN RESPONSE TO CALLS FROM THE WADS I.D. SECTION
(BIG FOOT), ATC CONTROLLERS MAY CONFIRM RADAR CONTACT AND IDENTITY OF TARGET
AIRCRAFT AND SHOULD PROVIDE INFORMATION AS REQUIRED. A SIMULATED FLIGHT PLAN
AND PASSENGER MANIFEST WILL BE PROVIDED BY NORAD/J38X.
10. SPECIAL INSTRUCTIONS FOR TARGET AIRCREW:
A. CONTACT WESTERN AIR DEFENSE SECTOR PROJECT PERSONNEL AT DSN 984-4631/4781
OR COMMERCIAL (253) 984-4631/4781 ONE HOUR PRIOR TO DEPARTURE FOR FINAL
INSTRUCTIONS. DO NOT FLY THE MISSION IF THIS CALL IS NOT MADE.
B. AIRCREW SHOULD MONITOR BOTH THE TARGET MONITOR FREQUENCY AND ATC
STARTING AT BTG. ACKNOWLEDGE ONLY THOSE TRANSMISSIONS FROM ATC WHICH ARE
FOR NORMAL, NON-SCENARIO RELATED AIR TRAFFIC CONTROL PURPOSES (I.E., FREQUENCY
CHANGES, ALTITUDE REQUESTS, TRAFFIC ADVISORIES, ETC). DISREGARD ANY REQUESTS
FROM ATC REGARDING THE SCENARIO ITSELF (I.E., HIJACKER DEMANDS, ETC).
UPON REACHING FLW (3505N 11951W), A SIMULATED TRANSMISSION FROM THE AIRCRAFT TO
OAKLAND CENTER STATING THAT "THE HIJACKER HAS GIVEN UP AND YOU ARE DIVERTING
INTO VANDENBERG" WILL BE GIVEN TO THE WADS SAOC ID SECTION.
Event: Terrorist on board a regular flight from London to JFK

3. United Airlines flight 558 is a regular flight from London to JFK. Heathrow airport police arrest some individuals with explosives on them. They determine through interrogation that this flight has two accomplices on board. Their plan is to detonate their explosives over NYC. NEADS sim cell will call acting as Heathrow Police to FAA. The two individuals interrogated are associated with the Palan Resistance Movement.

4. This information is to be made known approximately 1400Z. Conclusion: Blue force should divert the aircraft, when the terrorists realize they are not near NYC, they detonate their explosives over land near the divert location. No survivors.

MAJCOM remarks: A jet fuel tanker truck overturns near a drainage ditch. Approx 4000 litres of JP-8 fuel is spilled in an area 25 m by 25 m with fuel flowing towards the drainage ditch.

What is this input evaluating?
Communication between AE aned Log reps in the AOC. Environmental reporting procedures.

What is the response expected from the AOC?
AE - Ensure host wing advises local environmental department of spill and of corrective actions
- Ensure host wing files appropriate environmental mishap report to Environment Canada with a copy to 1 CAD A4 AE Env.
Logistics - Does vehicle need to be replaced? Are there sufficient tankers on site to refuell aircraft. YES

SUMMARY:

EXERCISE CONTROLLER'S INSTRUCTIONS:

Initial call to Miami AMIS, Mr. Walter Murphy, shows a fit plan for a Cubana 231 on a M3: 3442 going from Havana to Shannon. FAA requests NORAD escort.

Miami AMIS, Mr. Walter Murphy, passes that A/C is going from MUHA to EINN(Shannon, Ireland) and the hijackers are Cuban demanding Political Asylum. They wish to be taken to JFK. There are 223 passengers and 10 crew aboard.

Hijackers are armed and threatening violence if there are not taken to their requested destination.

FAA will direct a/c to go to JAX based on decisions made by DOT and DOS. Aircraft will comply fooling the hijackers into believing they are going to JFK.

At PT 3, hijackers change their minds and demand to land at Atlanta. Pilot can’t land at JAX because hijackers can still see water and they continue to threaten passengers if their requests aren’t met. Aircraft will land safely at Dobbins AFB.

DOT and DOS have a conference and determine that it is best that the aircraft land at a military installation to reduce media exposure. They recommend Jacksonville NAS, Dobbins AFB (near Atlanta), or Robbins AFB.

Once aircraft is on the ground FBI, INS, and DOJ interview and discover that hijackers are seeking political asylum. It is also discovered that they were only carrying toy guns

SUMMARY:

EXERCISE CONTROLLER'S INSTRUCTIONS:

SE Exercise shop will simulate MR. Walter Murphy from Miami AMIS. Mr. Murphy will pass on that he has received information from Cuban ATC concerning a hijacked cuban airline. Hijacked aircraft shows a fit plan for a Cubana 231 on a M3: 3442 going from Havana to Shannon.

Upon learning of the hijack situation, Sim FAA will contact Sim NMCC and request they convene an unclassified hijack conference. Timing of conference will need to be coordinated with SEADS exercise controllers. Sim NMCC will convene the conference. The conference will include:

NORAD CC
SIM NMCC
SIM FAA
SIM SOUTHCOM

NORAD may request that CONR or SEADS be added to the conference. If asked, Sim NMCC will agree to have them added and direct NORAD CC EA to add them to the conference.

When the conference is convened, Sim NMCC will ask Sim FAA what the situation is. Sim FAA will pass an update to include aircraft type, current location, and current intentions. FAA will state that Miami AMIS was contacted by Cuban ATC who reported that the crew of the IL-62 had radioed they were being hijacked. At this point, the manifest of the acft is unknown. Sim FAA will also request NORAD assistance in the form of aircraft to shadow the cuban airliner. Sim NMCC will approve the request and direct NORAD to scramble fighters for FAA tasking. At this point, if NORAD HQ does not recommend
conference be terminated, sim FAA will make the request that conference be terminated until further info is known. The intent is NOT to have an open conference for the duration of the event. Sim NMCC will concur with the request and direct NORAD to keep them informed.

Expected action is that NORAD will pass to sector/region instructions to scramble jets. (This should be player action...after conference, ABMO tell Air Warning Center, which will pass it down).

Miami AMIS, Mr. Walter Murphy, passes that A/C is going from MUHA to EINN (Shannon, Ireland) and the hijackers are CAEG sympathizers demanding Political Asylum. They wish to be taken to JFK. There are 223 passengers and 10 crew aboard.

Expected action is that this information will be relayed to NORAD HQ. A follow on conference may be convened. Information may also be passed to Sim NMCC via an informal phone call.

Hijackers are armed and threatening violence if they are not taken to their requested destination.

At PT 3, hijackers change their minds and demand to land at Atlanta.

FAA will comply with all requests by the hijackers and NORAD assets will be used for shadowing purposes only. Aircraft will land uneventfully at Atlanta. FBI and LEA will be present to greet the aircraft. Event will be terminated at the point.

Information should be forwarded to HQ NORAD as situation unfolds. Event is designed to test communication between regions, sectors, and NDHQ. As information is passed to the SE ops floor via Miami AMIS (SE Exercise Controller), it should be passed on by the players to NORAD Air Warning Center and then Command Center. It will be assumed that Sim FAA is aware of the same information Miami AMIS.

**MAJCOM remarks:** HIJACKED SPECIAL 23
Event Subject

*NOT IN DMMS* NBC Crop Duster Chemical Incident (Initial) - (Holloman AFB) (Event 1/3)

Go To Event: 144814

MSEL #: 144814

Injecting Cell: NORAD

ZULU Time 19 16 00 Apr 2000

Event Information

Event Level: 3

Phase: III

Inject Day: C plus 39

NORAD Time 190016 Apr 2000

WADS NBC Cell is expected to conduct appropriate analysis of this initial chemical event through the execution of proper NORAD NBC Warning and Reporting procedures. An environmental hazard (ENHAZ) report should be filled out and forwarded to the NORAD NBC Cell.

The WADS Sim Center will construct and inject an OPREP-3 report. The NBC Cell will receive the reported information. The WADS NBC Cell will then create an ENHAZ report. The ENHAZ report will be passed through the NORAD NBC reporting channels to NORAD HQ NBC Cell with info copy to CONR.

**OUTSIDE IN POLITICAL**
should provide the manifest as well as information saying ARINC heard a transmission at approximately 1615z that the aircraft had been hijacked. The aircraft has not checked in at their flight planned check points.

IPS will pass the following info over sim Guard once inside radar/radio coverage:

"This is the pilot of NORTH SOUTH AIRLINES Flt 4567. Terrorists have seize the aircraft and demands to land at Anchorage Intl Airport for fuel. They say many Americans will die a horrible death if you do not comply."

A half an hour later pass the following over sim GUARD as the pilot:
This is North South Airlines 4567. Terrorists are carrying 2 suitcase content unknown. Estimate 5 on board. Very unstable. (IPS will end transmission and no other transmission will be made.)

HIJACK-747 on a flight plan from Beijing to Detroit Intl refuel at Anchorage Intl. Once in radio range, terrorist will demand to land at Anchorage Intl to refuel. After refueling, hijack aircraft will depart PANC as a search only track through S39 (sim limitation in ANR) and proceed south along the coast through CANR A00 to WADS A00 with the intentions of going to South America. They will have to do an emergency landing at LAX because shot were fired and decompression resulted. Once on the ground FBI will successfully apprehend the aircraft and 5 terrorists.

NOTE: WADS can modify the end results to meet their training objective.

Demands: Fuel at Anchorage Intl and go to South America. No other demands will be given.
275 souls on board including 18 crew members. 155 American
5 terrorists on board with automatic weapons.
Nationality Hispanic/Asian
Believed to have highly explosive material in brief case
May delay airbridge if a/c are staging out of ANC
Intel support required for demands
USFJ ??? COORD W/ USCP J2, JICPAC, JICTRANS, POL-MIL.

"For the exercise this is FBI SIOC, we have just been informed that the DC Park police have apprehended two middle eastern men in the East Potomac Park. A manpad launcher was confiscated. We believe that this was the source of the flare sighting and could be linked with the Delta aircraft crash. The crash site appears to be the Bureau of Engraving and Printing. Traffic in the area is congested and it will be hours before follow-on information is available."

From:      Sim TSA Newark
To:        TSA Command Center
VIA:       Telephone

For the exercise this is TSA at Newark:

The explosion at Newark airport was determined to have originated at the
FEDEX sort center. FEDEX officials have confirmed that the source is believed
to have been a package that was being loaded on an aircraft. The company is
concerned and has ordered that all sort facilities contact local officials to
investigate other possible hazardous packages.

For the exercise this is Palo Verde with a situation update:

The aircraft impacted the wall of the reactor and then careened off into a building housing the backup generators. There was no structural damage to the reactor facility but the plant has lost power. Our FERMI 2 facility in Michigan has just reported an aircraft in their vicinity. A plant employee said he saw a small aircraft circling just to the northwest.

**Inject #1 1730Z**

From: Detroit TRACON  
To: NORAD /FAA/ USNORTHCOM/TSA  
VIA: DEN

For the exercise this is Detroit TRACON:

We have a primary target that has penetrated the Detroit Class B airspace. Aircraft is NORDO, and was originally on a VFR flight plan from Windsor, Canada to London, Canada. Aircraft Departed Windsor climbing out east. Approximately 6 miles east of the airport, the aircraft reversed course, turned off its transponder and is currently at 080/15 from DTW. Looks like it is about 6 miles due east of downtown. Track history shows a westerly heading.
For the exercise this is the Coast Guard Ops Center:

We received a Channel 16 call from the Marine Terminal at the Louisiana Offshore Oil Port (LOOP). They reported that a charter fishing boat approached the LOOP and shot 2 projectiles. One projectile impacted a Very Large Crude Carrier (VLCC) offloading its oil. The other projectile impacted the LOOP structure itself. Both projectiles have exploded causing significant damage. Oil is pouring into the Gulf. After shooting the projectiles, the fishing boat sped away north towards the Louisiana coast. No further info is available at this time.

For the exercise this is Detroit TRACON:

We have received several 911 cell calls about an aircraft that just flew into the Detroit Renaissance Center SW tower. Reports state the aircraft flew directly into the bldg causing a large fireball and damage to the building. Detroit Fire Dept is responding. No further info is available at this time.
Executive Express Charter, a company located in Toronto reported that a man attempted to rent a Falcon 20 aircraft. The man wanted to pay cash for the aircraft and pilot it himself. The receptionist explained that a company pilot would fly the aircraft. The man began to ask a lot of questions about company policies; in particular if he would be able to see inside the cockpit and talk with the pilot. When asked the destination said that he wasn't sure but that he wanted a full tank of gas and would be heading towards Niagara Falls to sightsee. Prior to boarding, the man's carry-on luggage was checked by security personnel who discovered a false bottom in the bag. The compartment contained ceramic knives. Before the Charter Company could react, the man fled the scene.
